bombitsatsawane@gmail.com

## SKILLS

**Interpersonal skills and adaptability**

- Strategic problem solving and negotiation
- Collaborative teamwork
- Quick learning and development

**Technical skills proficiency**

- Git and github
- CI / CD and test automation
- SQL
- Product lifecycle understanding
- Expertise in cloud technologies
- Full-stack development (Python, Java, TypeScript, Angular, JavaScript, HTML & CSS)
- Understanding of DevOps practices
- Agile and Scrum frameworks
- API integration techniques
- AI and machine learning solutions
- Web application development

## REFERENCES

- Team Lead Ponagalo, MSDP Attorney, +27 (65) 985-0323
- Supervisor, Ditsong National Museum, Mphomalementja@ditsong.co.za, (072) 720-3121

## CERTIFICATIONS

- **Power Learn Project** (Successfully completed a 16 -week program in Software Development covering Python, Web Technologies, Database Management, Startup Building & Employability and Software Engineering Essentials, with a specialization in **AI for Software Engineering**.)
- **Udacity(**Verified Certificate Of Course Completion introduction to **Generative**

Software Engineering graduate with an Honours degree in Indigenous Knowledge Systems and research experience. Skilled in Java, Python, and SQL for application development, debugging, and database management. Experienced in developing client-server applications and software solutions. Proficient in AWS cloud technologies and web development. Strong knowledge of software engineering principles, problem-solving, and system design. Effective team collaborator with a strong interest in artificial intelligence, cloud computing, and data analytics.

## EXPERIENCE

February 2024 - February 2025
**Customer Service *MSDP Attorney***, Kempton Park

- Managed inbound and outbound debt collection calls for Nedbank accounts
- Negotiated payment arrangements and followed up on outstanding balances
- Maintained accurate records while ensuring regulatory compliance

January 2023 - December 2023
**Curator *Ditsong National Museum***, Pretoria

- Assisted with artefact cataloguing, research, and exhibition preparation
- Supported collections management and conservation activities
- Contributed to public education and museum outreach programs

## EDUCATION

2025
**Diploma Software Engineering**
**Wethinkcode_**, Rosebank, GP
Completed

2025
**Driver's License**
**C1**, Thohoyandou

2023
**Bachelor's Degree Bachelor Of Indigenous Knowledge Systems**
**University Of Venda**, Thohoyandou, LP
Completed

- Dissertation in Researching

## PROJECTS

- **Robot World (Java, Client-Server Application)**
  Developed a multi-threaded robot simulation using Java, sockets, and JSON. Implemented client-server communication, robot commands, and real-time interaction in a virtual world using object-oriented programming.

**AI with AWS** and **Future AWS AI Engineer**)
- **AWS Educate courses**

## SOCIAL NETWORKS

- www.linkedin.com/in/tsatsawane-bombi-8498651a2
- https://github.com/Charity2001

- **Self-Storage App (Full-Stack Application and AWS Cloud technologies)**
  Built a storage management application that allows users to manage storage units, store customer information, and track items. Used databases and backend logic to handle data efficiently
- .**Block Vibe Game App (Game Development Project)**
  Created an interactive game application with user controls, game logic, and visual interface. Focused on problem-solving, programming logic, and improving user experience.
